UNEMPLOYMENT INSURANCE CLAIMS*

Vol. 38
No. 12

Reference Week:
December 18, 1982

TRANSMISSION OF MATERIAL IN THIS RELEASE IS EMBARGOED UNTIL 9:00 AM (EDT) Thursday, December 30, 1982

State Programs - Seasonally Adjusted Data

In the week ending December 11, 1982, seasonally adjusted insured unemployment dropped by 24,000 to 4,500,000; the seasonally adjusted insured unemployment rate moved down from 5.2 to 5.1 percent. Seasonally adjusted initial claims rose by 11,000 to 544,000 during the week ending December 18, 1982.

State Programs - Unadjusted Data

During the week ending December 11, 1982, insured unemployment at 4,482,100 was 932,700 higher than the comparable week a year ago. The most sizable increases occurred in California (164,900), Texas (123,200), Pennsylvania (115,400), Illinois (72,400), Louisiana (41,800), and Ohio (34,000), while Michigan (20,200), and Oregon (6,900) showed the largest declines.

There was an rise of 21,000 from the previous week, with Illinois (24,600), Wisconsin (22,300), Michigan (8,700), Kentucky (8,400), West Virgina (6,400), and Indiana (3,700) noting the largest increases. Lower activity in the transportation equipment, construction, trade, service, machinery, paper, food packing, automobile, garment, coal, and primary metals industries accounted for the increase. The largest declines took place in Georgia (9,900), and Texas (9,700), a result of worker recalls in a variety of industries.

For the week ending December 11, 1982, the insured unemployment rate was 5.1 percent, one percentage point higher than the same week a year earlier (4.1 percent), but showing no change from the prior week (5.1 percent).

In the week ending December 18, 1982, initial claims at 597,900 were 46,200 below the corresponding period in 1981. The largest decreases occurred in Michigan (11,500), Indiana (11,300), Virginia (8,600), Tennessee (7,200), Ohio (6,600), and Kentucky (4,700), while Texas (6,900), and California (6,000) showed the largest increases.

There was a decline of 40,300 from the preceding week, with the largest decreases taking place in North Carolina (6,600), Pennsylvaina (6,200), California (6,200), Texas (5,000), Alabama (4,900), and Georgia (4,700). Fewer claims among workers from the apparel, service, primary metals, and transportation equipment industries were responsible for the reduction. The most sizable increases occurred in New York (3,300), and Massachusetts (3,300), a result of layoffs in various industries.

*Initial claims for the week ending December 18, 1982.
Insured unemployment for the week ending December 11, 1982.
TRIGGER NOTICE 82-50 CONTAINED ON PAGE 10.

BEST COPY AVAILABLE

In addition to claimants under the regular programs, 363,600 insured jobless workers filed claims under the extended benefit provisions. In the previous week 355,900 such claims were filed. (See page 12 for detail by State)

Benefit exhaustions: In the eight large States which provide preliminary data weekly, 39,700 workers exhausted their regular unemployment insurance benefits. This was 600 less than the number reported the previous week, but 14,700 higher than the previous year. The totals for these States were: California (11,100), Illinois (6,600), Pennsylvania (5,600), New York (4,900), Michigan (4,200), New Jersey (3,400), Indiana (2,600), and Massachusetts (1,500). These exhaustions may lead to Extended Benefits in Illinois, Pennsylvania, and Michigan.

Federal Programs: UCFE, UCX

Insured unemployment under the UCFE program, (covering former Federal civilian employees), at 33,400 for the week ending December 11, 1982, was 1,800 above a week earlier, but 7,500 under the comparable week in 1981. Under the UCX program, 24,700 ex-servicemen were reported as continuing to file claims. This was 3,800 higher than the previous week, and 4,400 more than a year ago.

Initial claims under the UCFE program, at 3,800 for the week ending December 18, 1982, were 200 above the week earlier. A decrease of 900 from the previous week to 5,300 was noted in claims filed under the UCX program by ex-servicemen. In the comparable week in 1981, the volumes were 3,600 and 2,300, respectively, under these programs.

Insured Unemployment Rates (Regular Programs)

10 Highest States 1/
